About our Meeting

The International Myeloma Society Annual Meeting is the defining meeting in myeloma with a focus on both the basic, preclinical and the clinical aspects, including:

- Scientific Programs
- Keynote Addresses
- Poster Presentations
- Oral Presentations (Basic Biology, Preclinical Trials and Clinical Studies)

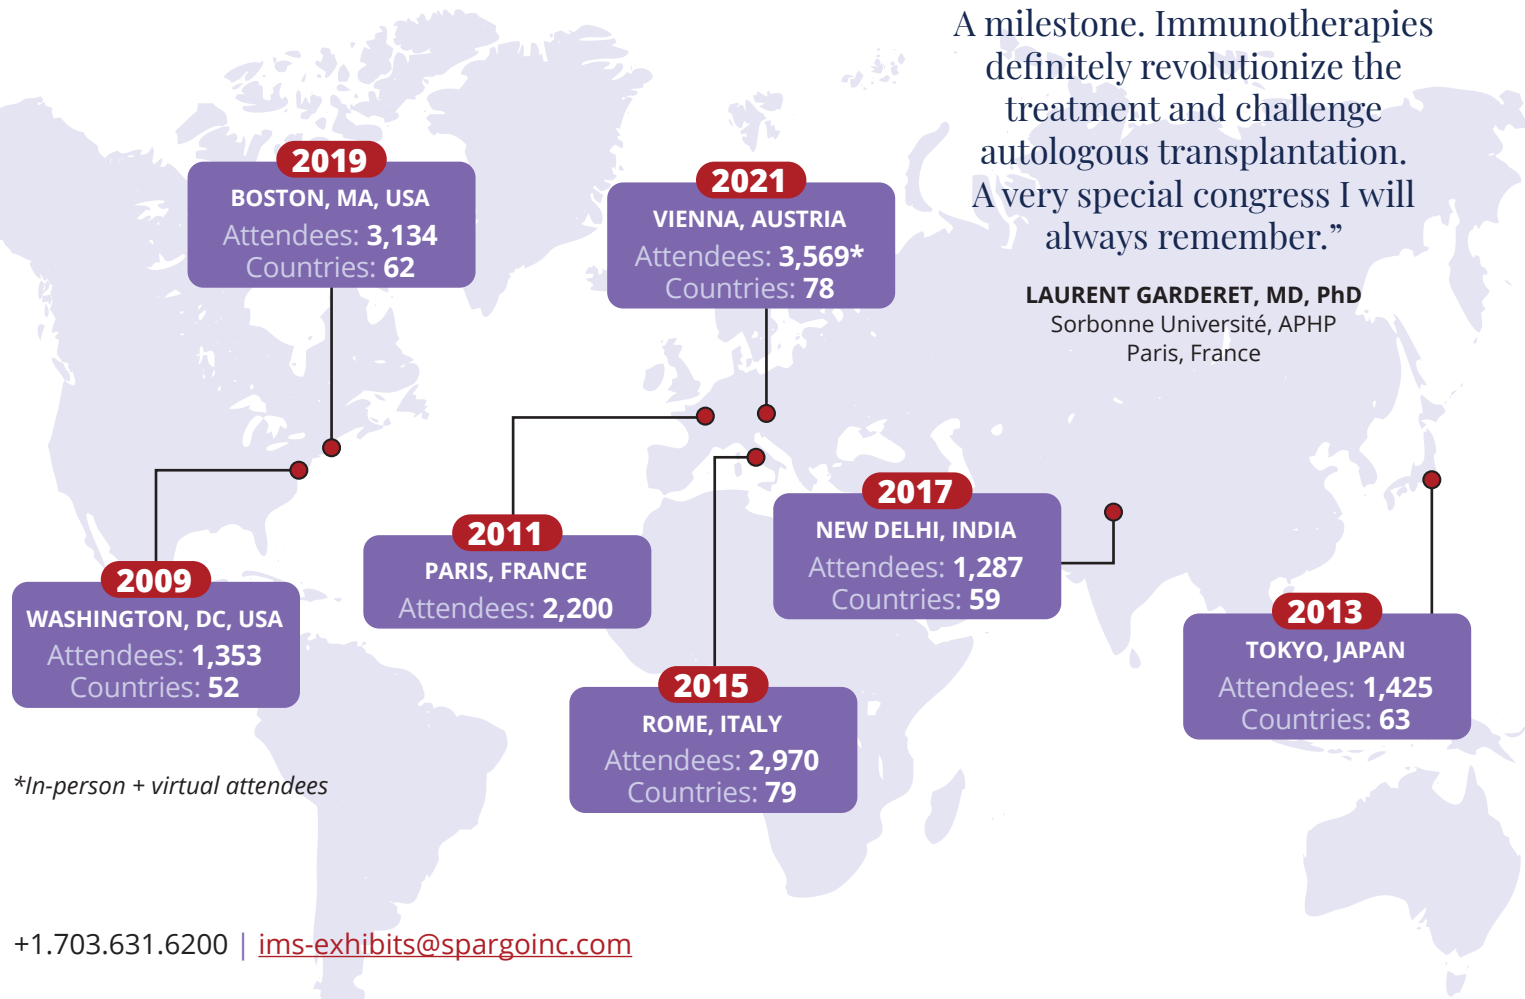

“I’ve already come away with so many great ideas from the interactions and discussions here in Vienna. You just can’t get that any other way. It’s what’s been missing for the past 2 years!”

STEVEN P. TREON, MD, PhD, FACP, FRCP

Dana Farber Cancer Institute
Boston, MA

Attendance Data

“The 18th International Myeloma Workshop in Vienna. A milestone. Immunotherapies definitely revolutionize the treatment and challenge autologous transplantation. A very special congress I will always remember.”

LAURENT GARDERET, MD, PhD

Sorbonne Université, APHP
Paris, France

Support Programs

Support funding is vital to the expansion of the International Myeloma Society's face to face meetings, career development initiatives, and research programs and to improving the condition of patients with myeloma. Your support contributes to helping clinicians and researchers develop and expand their expertise in myeloma which results in improved outcomes for patients throughout the world.

Titanium

- Clinician focused Educational Session held as part of the official IMW program (non-compete). The session will be included in the IMW 2022 Virtual Meeting that will be hosted online through December 31, 2022

Our Purpose

The International Myeloma Society (IMS) is a professional, scientific, and medical society established to bring together clinical and experimental scientists involved in the study of myeloma.

The purpose of this society is to promote research, education, clinical studies (including diagnosis and treatment), workshops, conferences, and symposia on all aspects of multiple myeloma worldwide.

The IMS is a membership organization comprised of basic research scientists, and clinical investigators in the field along with physicians and other healthcare practitioners.

IMS is governed by a Board of Directors representing practices from around the world. The Society encourages and promotes the study of this expanding field through its International Myeloma Society Annual Meeting and additional meetings and workshops held throughout the year.
